STEALTH®

The world's first and only Ultra-High-Efficiency Toilet is here. Innovative and stylish, the original **Stealth** has a whisper quiet flush with a low profile body. The extended footprint makes it perfect for any retrofit project. Available in either an elongated or round bowl, the classic design provides a comfortable seat regardless of your space. And because of its integrated flapperless technology, it's virtually maintenance-free. Think of it as the secret weapon of the water revolution.
