

*Since 1977, the Niagara name has become synonymous with innovative conservation for a growing customer base of utility companies, government leaders, energy management officials, and eco/cost-conscious homeowners and developers.*

*Today—as climate change, population growth, and record droughts present an unprecedented strain on our water supply—we are more obsessed than ever. Niagara is doubling down on our purpose and pushing our technology to invent new ways for our customers to conserve water without sacrificing performance.*

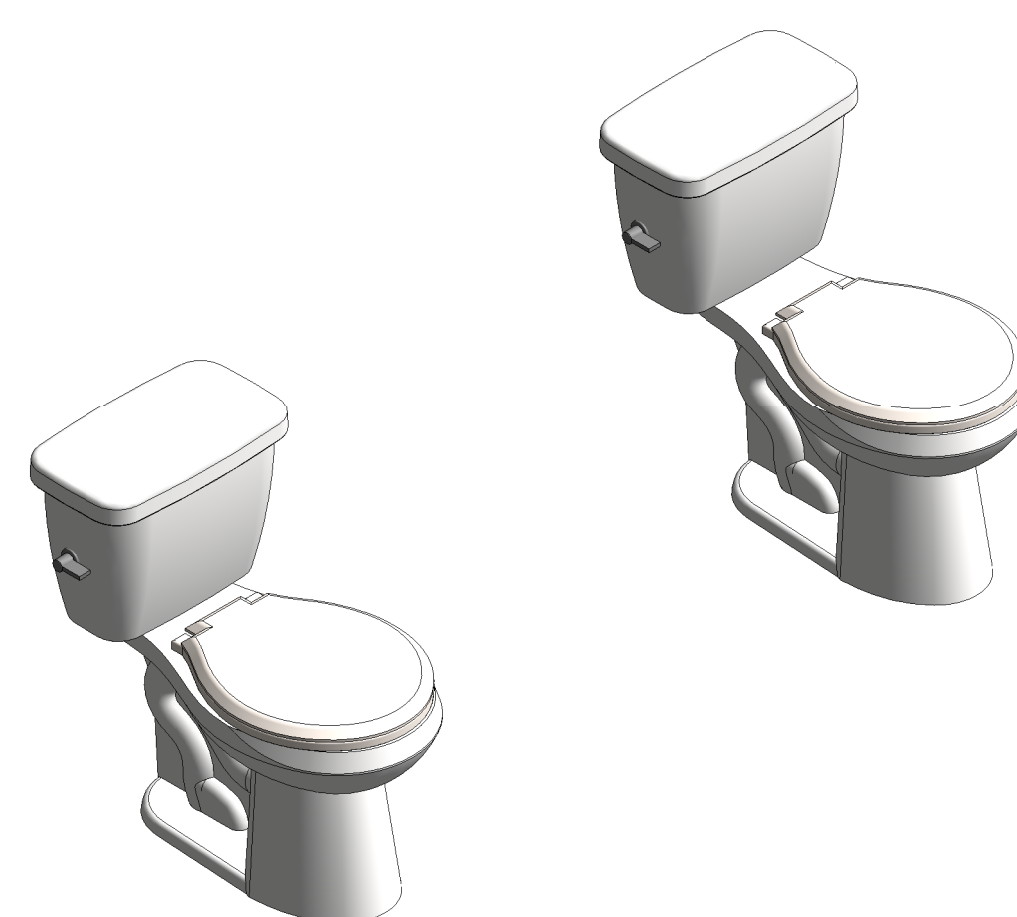

Niagara Ecologic® toilets feature innovative gravity-assisted tip-bucket technology, creating a high-performance flush.

- No Flapper. No Leaks.
- Maintenance Free - no flappers, chains and levers to replace
- No Double Flushing - one flush will thoroughly empty the bowl every time.
- Sweat-Free Tanks
- Adjustable Rough-In
- Fully-Glazed Trapway
