

STEALTH[®] ONE PIECE

Global Leader in Water Conservation Since 1977

STEALTH® ONE PIECE

With an elegant design suited for any environment, the **Stealth One Piece** finally brings together beauty and brawn. The One Piece is a single-flush toilet and features patented Stealth® Technology that allows the ability to flush the least amount of water possible while providing a bold, sophisticated presence to your bathroom. Its one-piece design eliminates unsightly contours caused with certain two-piece model toilets, while its skirted sides conceal the trapway system giving a sleek look that is also extremely easy to clean.

FEATURES

- Smooth, Low Friction Ceramic Surface
- Fully Glazed 2" Trapway
- Stylish, Inconspicuous, and Durable Flush Button
