Niagara Conservation, a manufacturer leveraging patented technology to increase water- and energy-savings for its innovative products, recently won the 2017 Interline Annual Partner Conference with the Growing Together Award. The award was presented to the company that surpassed sales performance above market growth rates and displayed commitment to the company's future success but strengthening program support. Niagara was also nominated for the 2017 Strategic Partner of the Year.

The IBI Partnership Awards recognize superior performance from vendor partners nominated by key associated of Interline Brands. Winners are selected from finalists who have distinguished themselves in each category.
