

What's Hot in Toilets

1. Blending traditional American farmhouse design with modern conveniences, the new Oak Hill suite of bathroom fixtures from **DXV by AMERICAN STANDARD** brings the simplicity of a pastoral lifestyle to today's bathroom.

2. The one-piece wall-hung Sanistar Macerating Toilet System from **SFA SANIFLO** allows the homeowner to create a new small bathroom anywhere, while saving both space and water with its self-contained build.

3. The Neorest 700H from **TOTO** is engineered to provide its user with a high level of comfort. Ewater+ technology keeps the bowl clean and hygienic, and the Wonderwave Spray and warm-air dryer keeps the user feeling refreshed.

4. Equipped with two flush options, the Stealth UHET Dual Flush Toilet from **NIAGARA CONSERVATION** makes it possible to save more than 15,600 gallons of water annually, compared to the older 3.5 gallons-per-flush toilets.

5. The Veil Intelligent Toilet from **KOHLER** boasts features like a heated seat, dryer, deodorizer, nightlight and flush control in a one-piece design. For enhanced hygiene, the bidet nozzle is self-cleaning and uses sterilized water.

6. As part of the Wicker Park Suite from **GERBER**, the one-piece elongated toilet with a concealed trapway offers a contemporary style and only 1.28 gallons per flush.
