

Niagara Original Stealth toilet

May 23, 2017

Niagara's Original Stealth toilet now comes with a side handle. Available in either an elongated or round bowl, the classic design provides a comfortable seat and the extended footprint makes it ideal for any retrofit project. It features Stealth Technology that is designed for a powerful, reliable and ultra-quiet performance. With 0.8gpf, it is a true ultra-high-efficiency toilet. With its integrated flapperless technology, it's whisper quiet and virtually maintenance free. It also is fully ADA compliant with the appropriate seating.
