

SWITCH TO BIDETS

THE BENEFITS OF USING BIDETS INSTEAD OF TOILET PAPER

ENVIRONMENTALLY FRIENDLY

Toilet paper continues to use up trees. A switch to bidets would be a contribution to saving the environment one use at a time.

ACHIEVE CLEANLINESS

Bidets provide more cleanliness than alternatives such as toilet paper.

PERSONALIZED COMFORT

Various bidet features include a heated seat, adjustable water temperature, and differentiating water pressures.

SAVE MONEY

Because bidets reduce the need for toilet paper, the overall cost will go down.
